Why Electronics and Communication Engineering Measurements and Instrumentation? In this section you can learn and practice Electronics and Communication Engineering Questions based on "Measurements and Instrumentation" and improve your skills in order to face the interview, competitive examination and various entrance test (CAT, GATE, GRE, MAT ...

### **Electronics and Communication Engineering - Measurements**

Instrumentation engineering is the engineering specialization focused on the principle and operation of measuring instruments that are used in design and configuration of automated systems in electrical, pneumatic domains etc and the control of quantities being measured.

Course overview. Teesside University's MEng (Hons) Instrumentation and Control Engineering degree will set you firmly on the path for high-earning potential as a professional engineer.

### **Instrumentation and Control Engineering, MEng (Hons)**

Instrumentation and control is a field applicable to many sectors of industry. It enables efficient and safe automatic control of large-scale continuous processes including nuclear power stations, oil refineries and chemical plants down to smaller batch operations such as manufacturing centres, breweries and other food production facilities.
