Andlor Logistics Systems Inc. - Andlor Group - Warehouse

Military logistics is the discipline of planning and carrying out the movement and maintenance of military forces. In its most comprehensive sense, it is those aspects of military operations that deal with: Design, development, acquisition, storage, distribution, maintenance, evacuation, and disposition of materiel.

Military logistics - Wikipedia

Logistics is generally the detailed organization and implementation of a complex operation. In a general business sense, logistics is the management of the flow of things between the point of origin and the point of consumption in order to meet requirements of customers or corporations.

Logistics - Wikipedia

- 3 - Definition of System. [Blanchard, System Engineering] Different Systems. Natural and man-made system. Physical and conceptual systems. Physical systems are those made up of real components occupying space.
